09/2024 - 10/2024 Front End Web Developer

PROJECTS

King (Shopify Theme Clone)

10/2024 - 11/2024 Ezitech Institute

https://kingshopify.netlify.app/

I was responsible for designing and developing the front-end of a website, focusing on creating a layout that is responsive and works well on all devices, while also being visually appealing to users. To enhance the website's interactivity and engagement, I incorporated animations that improve the overall user experience. Throughout the development process, I used a combination of HTML for structure, CSS for styling, Bootstrap for responsive design, JavaScript for interactivity, and React.js for building dynamic components.

Ahana (Fitness Website Clone)

10/2024 - 10/2024 Ezitech Institute

https://ahanafittnes.netlify.app/

Developed the front-end design of a website, ensuring it was both responsive and visually appealing. Incorporated animations to enhance user engagement and utilized HTML, CSS, Bootstrap, JavaScript, and React.js for development.

SPAMS (Sports and Fitness Project)

09/2023 - 07/2024 Kohat University of Science and Technology Kohat

https://fyp-project-mu.vercel.app/

Built a website for squash players to book trainers and improve their health by sharing data from wearable devices with trainers and doctors. The website also features an AI assistant to provide temporary relief if a player faces any issues. Tools used in this project include VS Code, HTML, CSS, JavaScript, React.js, Node.js, Bootstrap, and Firebase.

Fineloan (Loan Website Clone)

09/2024 - 09/2024 Ezitech Institute

https://fineloans.netlify.app/

Developed the front-end design of a website, ensuring it was both responsive and visually appealing. Incorporated animations to enhance user engagement and utilized HTML, CSS, Bootstrap, JavaScript, and React.js for development.

SUMMARY

I am a detail-oriented and driven Software Engineer with a strong foundation in HTML, CSS, JavaScript, Bootstrap, and React.js. With a year of hands-on project-building experience during university and during my internship, I am currently sharpening my skills as a Front-End Intern. I'm eager to join a dynamic team where I can further enhance my problem-solving abilities and grow as a web developer. Alongside my passion for software engineering, I am an avid squash player with nearly a year of competitive experience. My commitment to the sport has earned me a district-level medal and the honor of representing the Kohat team at the KP Inter-Division Championship. The discipline, strategic thinking, and resilience I've developed through squash have profoundly shaped my approach to tackling challenges in software engineering.

SKILLS

HTML	CSS	JavaScript	Bootstrap
Tailwind	React.js	MySQL	Java
SEO	Figma
